

Northam – July/Sept 2017

Master TreeGrower Course

Trees for land protection, shelter, wildlife, aesthetics, bush-food.....& more

The course is a joint project between the Australian Agroforestry Foundation, the South West Agroforestry Network and Wheatbelt NRM

Interested in using trees on your property? Australian Master TreeGrower courses provide some of the skills and contacts to enable you to use trees and revegetation to meet your particular interests and circumstances.

What: An 8-day course for landowners interested in trees for conservation and profit.

When: Day 1 Friday 28 July. Continues on Fri & Sat every fortnight. 9am start, finish by 4pm.

Where: Northam (venue to be confirmed)

Cost: \$200 (ex GST) - a contribution to food & materials. **DAY 1 is FREE** - but RSVP

Format (it's not your usual course):

- Morning presentations by experienced landowners, industry members and recognized experts covering topics of interest to participants.
- Afternoon tours to inspect and learn from local examples of trees and revegetation being managed by landowners. Tours include hands-on activities.
- Program is flexible and will be adapted to suit the interests of participants. The approach is non-prescriptive. It is recognized that everyone's situation is unique.

Gear: Paid-up participants receive a MTG hat, MTG gate sign, tree measuring tape, course notes, certificate and more.

Food: Lunches and morning/afternoon teas provided.
